ANUSHKA OTARI

AIML INTERN

anuotari27@gmail.com

ABOUT ME

Aspiring Gen AI Engineer with hands-on experience in Machine Learning, Generative AI, and Retrieval-Augmented Generation (RAG). Experienced in building AI-powered applications using Python, Gemini API, FAISS, and computer vision. Strong interest in Large Language Models, agentic AI, and developing practical AI solutions that solve real-world problems.

EDUCATION

2023-2026

Diploma in Artificial Intelligence & Machine Learning

Dr. Bapuji Salunkhe Institute of Engineering and Technology,Kolhapur

Percentage:95.47%

Built a strong foundation in Artificial Intelligence, Machine Learning, Computer Vision, and Data Science through academic coursework and practical AI projects, including Generative AI and Retrieval-Augmented Generation (RAG) applications.

WORK EXPERIENCE

iGAP Technolgies,Kolhapur | 2025

AI Developer Intern

- Developed Machine Learning and Deep Learning applications using Python for real-world problem-solving.
- Built and evaluated predictive models through data preprocessing, feature engineering, model training, and performance evaluation.
- Worked with computer vision and NLP concepts to develop AI-powered applications.
- Collaborated with mentors to implement and optimize AI solutions using industry-standard libraries and frameworks.

PROJECTS

StudyPilot AI | RAG-Powered Generative AI Learning Assistant

- Developed a Generative AI learning assistant using Retrieval-Augmented Generation (RAG) and Gemini LLM.
- Implemented semantic search with vector embeddings to answer questions from uploaded documents accurately.

SKILLS

- Python
- JavaScript(Basics)
- SQL
- Git & GitHub
- Gemini API
- Prompt Engineering
- Communication
- Collaboration
- Large Language Models (LLMs)
- Retrieval-Augmented Generation (RAG)
- Natural Langiuage Processing
- FAISS
